work at Troy. Certain courses required during the second year are offered, but before continuing into the second year, student should carefully examine the requirements of the professional school selected.

#### Other Pre-professional Career Paths

Troy University also provides appropriate courses of study for a number of other professional and vocational fields, including pharmacy, home economics, land surveying, physical therapy, public administration, seminary training, etc. These programs require general preparation (as required for the bachelor's degree) as a prerequisite for admission to the professional or graduate school.
